

The most comprehensive Mobile Storage Software solution available!

Mobile Storage Management Made Easy

Don't waste another minute. Make the most of your time and your resources. Total Recall's barcode based software system with comprehensive functionality for dispatching, tracking and managing mobile containers has changed the Mobile Container Industry. Add containers to inventory, schedule them for delivery or pickup, rent them to customers and track their current locations at every point in seconds. On the move? Total Recall can be used with a portable barcode scanner for accurate, up to the minute tracking of mobile containers on the fly.

There's No Service Like SELF Service!

Reach more potential customers, and let them manage their own orders with Total Recall's Web Server Module. Customers can rent or reserve mobile containers or add their name to a waiting list, and pay online with a credit card from home or work. It's quick and easy for you and your customer.

The Right Route to Profitability

Increase your effectiveness and your profitability with Total Recall's dispatch module. Dispatchers will know the availability of trucks, fork lifts and other equipment as well as the availability of drivers and employees and can create the most effective schedule — in a flash! Drivers will save time by finding the quickest route to locations with integrated Microsoft MapPoint™. Re-routing or adding new pick-ups or deliveries has never been easier, and at the end of the day, you'll have a detailed report of every activity.

It's Accurate.

It's Easy.

It's Total Recall from DHS Worldwide.
